**MADE is a hybrid program in collaboration with Assemblywoman Cottie Petrie-Norris, the City of Costa Mesa, the Maker Faire Orange County, and the OCIE SBDC, designed to assist product-based startup businesses in entering the marketplace to validate their concepts.**

Over seven weeks, participants will learn core concepts for building a successful business, including planning, marketing, and financing. This quick-paced program will make your dreams a reality in just a few short weeks and give you the ability to be prepared and ready to launch, expand, and operate your business in a marketplace.

The program culminates in a celebratory Graduation & Showcase Event, where each participant will have the opportunity to feature their products in a curated pop-up setting. This is a special moment to invite friends, family, and community supporters to experience your business firsthand.
